

GOKUL S

Senior 3D Artist

Chennai, Tamil Nadu | 978-999-1826 | gokul23gs@gmail.com | linkedin.com/in/gokul-s-110121 |

Demo Reel: vimeo.com/1151556123

PROFESSIONAL SUMMARY

Senior 3D Artist with 8+ years of production experience as a 3D generalist, specializing in technical pipeline development and character animation. Expert in bridging the gap between artistic vision and technical execution through Python automation and custom Maya API tool development. AnimSchool graduate (December 2025) trained by Pixar, DreamWorks, and Blue-Sky veterans. Proven track record developing production tools that improved efficiency by 98%. Recognized as production and quality topper at Amazon with 100%+ efficiency rating.

CORE COMPETENCIES

3D Generalist Expertise: Modeling, texturing, lighting, rendering, animation, rigging, pipeline development

Technical Skills: Python scripting, Maya API, automation tools, custom tool development

Character Animation: Performance animation, facial animation, body mechanics, acting for animators

Production Pipeline: Workflow optimization, quality control systems, asset management, production tracking

TECHNICAL SKILLS

3D Software: Maya, Unreal, 3ds Max, Blender, ZBrush.

Texturing & Materials: Substance Painter, PBR workflows, Shader creation & optimization, HLSL, Shader Graph.

Technical: Python scripting, Maya API, Pipeline automation, Custom tool development, nCloth simulation

Post-Production: After Effects, Photoshop, Motion graphics, VFX compositing

Specializations: 3D generalist workflows, Technical problem-solving, Production optimization

WORK EXPERIENCE

3D Artist - Amazon.com, Chennai

Apr 2018 - Present

- Created high-quality 3D assets in Maya and Unreal for AR experiences, utilizing USD workflow for efficient asset staging and layering.
- Developed Transfer Map Tool automating high-poly to low-poly texture workflows, reducing manual baking time by 60%
- Engineered Mesh Penetration Identification Tool improving quality control efficiency by 40%
- Built Wrinkle Generator using nCloth physics for realistic character deformation
- Developed APB Production Tracker reducing calculation time by 98% (4 hours to 5 minutes)
- Created custom Maya API tools for pivot management and mesh manipulation
- Built internal automation systems: Kryten (3D Photogrammetry) and Dimension Ninja
- Achieved production and quality topper recognition with 100%+ efficiency rating
- Established production standards and quality control workflows for AR content delivery
- Developed realistic and stylized textures using PBR workflows for a wide range of digital assets.

2D/3D Motion Graphic Artist - Vidzpro Services, Bangalore

May 2016 - Apr 2018

- Delivered 3D animations, VFX, and motion graphics for client projects from concept to completion
- Developed reusable animation templates and motion design language for efficiency
- Worked across multiple 3D disciplines including modeling, texturing, lighting, and animation

EDUCATION

3D Character Animation Certificate - AnimSchool

Dec 2025

Completed rigorous program from premier animation school founded by Pixar, DreamWorks, and Blue Sky veterans.

Bachelor of Science: Visual Communication - Madras Christian College

2012 - 2015

CUSTOM TOOLS PORTFOLIO

- Transfer Map Tool: Automated texture baking system for asset optimization
- Mesh Penetration Tool: Quality control for automatic mesh intersection detection
- Wrinkle Generator: Procedural nCloth-based character deformation tool
- APB Production Tracker: Automation system reducing workflow time by 98%
- Maya API Tools Suite: Custom tools for pivot management and mesh manipulation

CERTIFICATIONS

- Python for Data Engineering (2026)
- Introduction to Prompt Engineering for Generative AI (2026)
- 3D Character Animation Certificate - AnimSchool (2025)
- Complete 3D Animation Fundamentals (2021)
- Python for Absolute Beginners (2020)
- Master in 3D (2014) | Diploma in 3D Modeling (2015) | Diploma in Edit & Finish (2015)
